Microsoft Office Attention to detail & problem
solving Office administration expertise

Java Developer (Projects)

EXPERIENCE GMU

Fairfax , VA

08/2022 to 09/2024

Projects

Developed Java programs utilizing generics, collections, string parsing, object-oriented design, and JUnit testing to model machine behaviors, manage student grades, and analyze narrative structures across multiple realms.

Developed a Credit Reporting System using Linked Lists, Stacks, Queues, and Hash Tables with efficient data validation, file processing, and report generation; implemented dynamic data structures and adhered to Big-O requirements for optimal performance.

C Program with Dice Rolls and Encryption(Projects)

Developed C programs simulating a two-player game with dice rolls, encryption via Caesar Cipher, and compiled in Unix/Linux using input validation, random number generation, and a Makefile for efficient testing.

Python Developer (Projects)

Developed Python functions for customer data validation, interest calculation, error handling, and encryption, achieving a perfect score in CS Programming.

JK MOVING SERVICES

Accounting Specialist

07/2023 to Current

Sterling, VA

Preparing military billing and invoicing for one of the largest independent moving companies in North America.

Responsibilities include ensuring accurate and timely processing of payments, collections, and reconciliations, while complying with the Department of Defense regulations and standards. Review, process and reconcile accounts payable invoices and payments for DOD and GSA. Analyze financial data to ensure accuracy of information and compliance with accounting principles.

INTERSTATE MOVING RELOCATION LOGISTICS

Accounting Specialist/Revenue

03/2022 to 06/2023

Springfield, VA

Managed accounts receivable for various commercial and government clients. Supported the month-end closing and reporting activities. Developed reports to support month-end close process including account reconciliations.

Maintained fixed asset system and prepared related journal entries. Managed intercompany transactions and reconciled all intercompany accounts each month.

SUMMARY

Talented Software Developer equipped with great coding, debugging and project management abilities. Accomplishes project goals consistently with elegant, scalable code. Works great with team members under Agile and Scrum frameworks.
